

We are looking for a **Senior IT Infrastructure Engineer** to join our professional and dedicated UK IT team supporting company and client systems.

What will you be doing..

This role will see you providing an effective, efficient and high quality support service for both our company and client systems and infrastructure; including data centres, servers, networks & telephony systems. Proactively monitoring the IT infrastructure in order to meet agreed service levels and aim for complete customer satisfaction.

You will contribute to our wider IT strategy, take a lead on IT infrastructure projects and act as an escalation point to end users.

Design, plan and implement new solutions in accordance with business requirements, and understanding the risks and security considerations involved.

Who we're looking for..

You're an experienced and confident Senior Infrastructure Engineer, with proven commercial hands-on experience in a 3rd line or similar infrastructure role. An excellent communicator, with well-developed interpersonal skills and the ability to translate technical language into non IT jargon. You are a natural problem solver, who can diagnose complex issues, delivering solutions efficiently and professionally. You have skills and experience in:

- Remote Access Solutions – VPN/MFA
- Firewalls & Switches
- WAN, LAN, VLAN trunking etc
- Microsoft Windows and Windows Server OS
- ADFS, DNS, DHCP, Active Directory
- MS Exchange
- VMWare & VDI
- Security Tooling: Email Gateway, AV & Endpoint Security, Threat & Vulnerability Solutions
- Application and Patch Deployment

If you have prior experience of Linux administration/PowerShell/Office 365 this would be highly beneficial, but it's not essential.

What we can offer you

It's a great opportunity to work in an interesting, varied and key role for our business, supporting your colleagues and our customers.

You'll be joining our friendly and focused team; we have a culture where everyone pulls together, we're really passionate about the solutions we deliver and the positive impact they have on healthcare services all across the UK.

We're offering a competitive salary with an excellent range of employee benefits - including matched pension, health cash plan and a well-being allowance - plus personal development and opportunities for your career progression longer term.

Our teams enjoy a variety of work-related events as well as regular social activities in and out of the office.

Other info

Permanent, full time role

Based Leyland, Lancs

£35-45k DOE plus benefits package

If this is just the role you've been looking for, please [apply directly](#) on our recruitment portal or email any queries to our recruitment team [here](#), thank you.

(Please note: visa/sponsorship is not being offered, so you do require full right to live and work in the UK before applying)
