PHARMACY HEALTH SOLUTIONS

Are you a highly experienced Cyber Security professional, passionate about delivering best practice in information security?

We're looking for an experienced **Cyber Security Manager** to take the lead on the Cyber strategy for our UK group of businesses. With a range of highly complex and critical products in development and delivery for the UK health care sector, the security of both our business and clients' data is of utmost importance.

This new role will involve working with a variety of clients and industries, on a range of Cyber Security assurance and advisory projects. You will work with our clients as a business advisor, working with senior client management teams from within business operations, information security and IT to:

- Assess risks, using recognised sources of threat intelligence as well as risk impact assessments
- Review and lead on the management of Cyber Security, covering people, physical, process and technology aspects
- Advise on and, where required, manage the transformation and improvement of organisations' Cyber Security programmes
- Advise on and implement performance management and assurance frameworks for Cyber Security

We're looking for someone with

- Strong managerial experience in Information and Cyber Security
- Security relation qualifications such as CISSP, CISM, CISMP, ISO27001 lead implementer or auditor, MBCI, IAPP
- Core consulting skills; Advanced data and evidence management, client management on remediation programmes, driving innovation & continuous improvement
- Technical skill; Strong technical insight, practical knowledge and specialist capability
- Project and programme related qualifications; Prince II, Scrum, Agile
- Versatility; Proven ability to adapt and learn in an innovative environment
- Excellent communication and interpersonal skills

Ideally, you'll also have a software development background and prior experience of leading on accreditations/certifications such as; Cyber Essentials Plus, and managing penetration testing strategies

What this opportunity offers you

It's a critical role where you will have real influence and impact, leading on our Cyber practices and framework for our businesses and clients.

You'll be part of a friendly and focused team working across the UK. Our team enjoy a variety of work-related events as well as regular social activities in and out of the office. We promote a culture where everyone pulls together; we're really passionate about the solutions we deliver and the impact they have on healthcare services all across the UK.

We're offering a competitive salary with a superb range of employee benefits - including matched pension, health cash plan and a well-being allowance.

Full time Permanent

Travel across the UK will be required; company offices (our key office locations: London, Dundee, Leyland, Swansea) and client sites

£65-75k neg. DOE, plus our excellent benefits package

If this is just the role you've been looking for, please [apply now](#) with an up to date CV, thank you.

(Please note: sponsorship is not being offered, so you do require full right to work for the UK before applying)
