

We're looking for a skilled **Data Warehouse Developer** to join our team in Leyland.

About the job

This Data Warehouse Developer role will see you involved in a key project, focusing on a next generation product suite. You'll join our experienced team of developers, testers, Product Owner/BA and Scrum Master, based in the UK and Spain. You will be actively involved in the Scrum framework, including daily stand ups and Sprint reviews, and participate in design workshops and code reviews. You'll be working on solution development and maintenance of high quality software applications, enabling the business and their clients to store, query, retrieve, report and visualise important data in a highly efficient way.

Who are we looking for?

You'll be best suited to this role if you have a proactive, positive approach and really enjoy getting involved and being very hands on. It's a fast paced and busy environment, so you will need to be able to remain calm under pressure and manage your time and work effectively, whilst collaborating and communicating with the wider team. A naturally inquisitive individual, you'll look at solutions and innovations, or applying new technologies, to help improve and support the development process. You'll have very high standards and a clear passion and dedication to their work.

You will need to be able to demonstrate the following skills and experience:

- C# and/or Java
- RDBMS Databases – PostgreSQL, MSSQL or Oracle
- Data Integration (e.g. Pentaho PDI)
- Data Warehousing techniques
- Business intelligence / Analysis
- Agile development methods and practices (e.g. XP, Scrum, Kanban, Continuous Integration, Refactoring).

If you have experience in any of the following, this would be a real bonus;

- XML/XSD/XSLT
- NoSQL and Big Data (e.g. Apache Cassandra)
- Dimensional modelling techniques (e.g. Star Schema)
- Use of the Atlassian toolset including JIRA, Confluence, Bamboo, GIT and BitBucket.
- Pharmacy or healthcare domain knowledge

What are we offering?

It's a great time to join us, as the extensive programme of work ahead means multiple projects most of which will involve greenfield development using the latest technologies, working on really innovative new products. We promote a culture where everyone pulls together, is really passionate about the solutions we deliver and the impact on healthcare services all across the UK.

There's a competitive salary with a superb range of employee benefits - including matched pension, health cash plan and a well-being allowance - plus personal development and opportunities for your career progression longer term.

Our team enjoy a variety of work-related events as well as regular social gatherings and sports activities, both in and out of the office.

Full time 35hrs/week Mon-Fri, office based
£42-52k DOE, plus our excellent benefits package

If this is the type of role you've been looking for, please [apply now](#) with an up to date CV, thank you.

(Please note: sponsorship is not being offered, so you do require full right to work for the UK before applying)
