

Data Scientist – Cegedim Health Data

We're looking for a Data Scientist with Primary and Secondary healthcare data experience to join our team at Cegedim Health Data - the new fast growing RWD business which is part of the global Cegedim Group

Our focus is on Real World Data captured through our portfolio of sector leading community pharmacy software and GP practice management solutions, giving clients access to an unprecedented quality and quantity of healthcare data for more than 60% of the UK population. Although it's a new business unit you'll be part of the wider UK group of 650 people and a global group with 4500 people.

What will you be doing?

A key business role as the reference Data Scientist/Consultant for the business, coordinating with group businesses across Europe and our corporate team in France and contributing from panel design up to final service delivery to clients and partners:

- Delivery, Consultancy & Analytics, Patient Data & Digital Communication
- Patient pathways optimization
- Rare disease detection

- Perform data extraction, aggregation, integration and analysis using the Real-World Data available in group panels and multiple internal & external sources
- Evaluate and pre-process raw information
- Gather and integrate data from disparate sources
- Build models and analyse data to unearth trends and patterns
- Develop extrapolation modelling, design and implement Data Quality Assessment procedures

Our ideal person?

- Degree educated in Science, Computer Science, Health Sciences, Mathematics or similar, with an entrepreneurial spirit and happy to work independently with minimal supervision.
- Experienced Data Scientist who's worked extensively with Primary & Secondary healthcare data
- Active Data Warehouse Management, hands on working linking multiple data sources and facilitating data collection across multiple and complex software systems
- Proficient in Machine Learning and AI implementation
- Deep understanding of the Pharma markets: competitive environment, players in disease markets, regulatory/legal constraints, distribution channels, promoting channels etc.

We offer a great working environment and benefits package.

Permanent, full time.

Primarily a home based role with training and team meetings taking place in the London head office

Up to £80k DOE

If you'd be interested in joining our team in Leyland, please [apply now](#) with an up to date CV and contact details, thank you.

(Please note: sponsorship is not being offered, so you do require full right to work for the UK before applying)
