

We have a new **Front End Developer (React)** job in our Health Services team based in Leyland.

You'll work on our new green-field Health Services product portfolio using the latest technologies. We're evolving our existing applications and designing a new suite of integrated products, services and data to drive efficiencies to make our customers lives easier.

If you'd like to make a difference by helping to transform the world of pharmacy and optometry then please **APPLY NOW**.

About this role

This new Development role will see you working on a new greenfield product portfolio. You'll be actively involved in solutions design, design workshops and code review, as well as participating in Agile Scrum stand ups, reviews and retrospectives.

Who are we looking for?

a highly motivated Developer with hands-on commercial React and Front end experience. A talented individual with a genuine interest and enthusiasm for quality solutions and coding. Someone with good communication skills who enjoys working in a collaborative team environment, happy to learn and apply new technologies, and feel confident in expressing new ideas to help drive innovations.

On the technical side you'll have software/web development experience with;

- React, Visual Studio.
- Strong Redux, HTML5, CSS and Typescript/JavaScript skills
- Responsive design, web standards and architecture
- Front end deployment and using build tools
- Exposure to / understanding of UX design principles
- Agile Scrum practices and development methods; e.g. Continuous Integration and Refactoring

If you do have any experience of Node.JS backend, Java, Microservices, databases and/or an understanding of design patterns and webservice, these would also be really useful.

What can we offer you?

This is an excellent opportunity to have a key role in the delivery of innovative new applications, using the latest technologies and tools.

You'll be joining our friendly and focused team working in modern, open plan offices with breakout spaces and a great eating/relaxing area. Our business promotes a culture where everyone pulls together; we're really passionate about the solutions we deliver and the impact they have on healthcare services all across the UK.

We're offering a competitive salary with a superb range of employee benefits - including matched pension, health cash plan and a well-being allowance - plus personal development and opportunities for your career progression longer term.

Our team also enjoy a variety of work-related events as well as regular social activities in and out of the office.

Full time 35hrs/week Mon-Fri, office based

Up to £30k DOE, plus our excellent benefits package

If this is a great fit for you, please [apply now](#) with an up to date CV, thank you.

(Please note: sponsorship is not being offered, so you do require full right to work for the UK before applying)
