

We have a fantastic new **Full Stack Developer (Java, React)** job in our R&D team based in Leyland.

This Java role will see you working on our new green-field Healthi Services product portfolio using the latest technologies. We're evolving our existing applications and designing a new suite of integrated products, services and data to drive efficiencies to make our customers lives easier.

If you'd like to make a difference by helping to transform the world of pharmacy and optometry then please **APPLY NOW**.

About this role

This role will see you develop and deliver a new suite of products. You'll utilise the latest tools and technologies and be actively involved in solutions design, design workshops and code review, as well as participating in Agile Scrum stand ups, reviews and retrospectives.

Who are we looking for?

An experienced and enthusiastic Full Stack Developer proficient in Java and front-end js/React development. A motivated individual with a genuine passion for producing quality solutions and code. Teamwork and collaboration is vital to the successful delivery of the product roadmap, so you'll possess very strong interpersonal and communication skills, being confident in expressing new ideas to help driving innovation.

You'll have a degree in Computer Science or a related subject, and/or demonstrable commercial software development experience, along with knowledge of:

- Java, Java EE, J2EE
- Front end development with React, JavaScript and/or Angular/Node.js
- Spring framework and MVC
- Object Oriented Design and Design Patterns
- Web Services (Rest, XML, JSON)
- Relational and non-relational databases
- N-tier architectures
- Agile Scrum practices and development methods; e.g. Continuous Integration and Refactoring

If you do have any experience of mobile development such as Xamarin, and/or an understanding of UX design principles, it would be really useful too, but it's not essential.

What can we offer you?

You'll be joining our friendly and focused team working in modern, open plan offices with breakout spaces and a great eating/relaxing area. Our business promotes a culture where everyone pulls together; we're really passionate about the solutions we deliver and the impact they have on healthcare services all across the UK.

We're offering a competitive salary with a superb range of employee benefits - including matched pension, health cash plan and a well-being allowance - plus personal development and opportunities for your career progression longer term.

Our team also enjoy a variety of work-related events as well as regular social activities in and out of the office.

Full time 35hrs/week Mon-Fri, office based
£45-55k DOE, plus our excellent benefits package

If this is a great fit for you, please [apply now](#) with an up to date CV, thank you.

(Please note: sponsorship is not being offered, so you do require full right to work for the UK before applying)
