

Are you looking for a **User Experience Designer** role where you can deliver market-leading experiences? If so, our new Junior UX Designer job could be the perfect opportunity for you.

We are building a brand new dispensing and stock management product to help transform the world of pharmacy digital solutions. We are looking for a Junior UX Product Designer to join our talented Product team to help us design and deliver the best user experience.

The role

You'll be based in our Leyland HQ, working alongside your UX colleagues and the wider Product team. As a UX Designer you'll be supporting the continuous improvement of the products' user experience across a variety of digital channels.

You will be involved in the full product design and development cycle from research, sketch and prototypes through to test and launch. You'll collaborate with the Product and Development teams, building and maintaining strong relationships with key stakeholders. You'll be a perfectionist, confident and persuasive in articulating designs, engaging and communicating effectively with customers and developers to deliver the best possible user experience.

What skills will you need?

The person we're looking for is passionate about delivering the best user experience. You'll have very strong communication skills, able to clearly articulate design thinking. You'll work well in a team and be happy to take direction and guidance from Senior Designers. You will have an exceptional eye for detail and consistency. Ideally you'll have knowledge and/or experience in some or all of the following areas:

- UX design
- Adobe Creative Suite (XD etc.)
- Understanding of Web, Visual, and User-centric Design Principles
- Independently gathering user research
- Defining user & interaction models
- Creating user interface designs for the product portfolio
- Detailing storyboards, mock-ups & prototypes to communicate design ideas
- Updating and maintaining online Product Design Systems and architecture documentation

What are we offering?

You'll be part of our friendly and focused team working in modern, open plan offices with breakout spaces and a great eating/relaxing area. Our business engenders an open, empowered culture where everyone pulls together and is passionate about the solutions we deliver and the impact they have on healthcare.

In this environment you'll be encouraged to develop your UX experience and use your natural creative flair and great communication skills.

You will receive a competitive salary along with a great employee benefits package and opportunities to develop your career longer term.

Full time 35hrs/week Mon-Fri, office based
£20-25k neg. DOE, plus our excellent benefits package

If you'd be interested in joining our team in Leyland, please [apply now](#) with an up to date CV and examples of/links to your portfolio, thank you.

(Please note: sponsorship is not being offered, so you do require full right to work for the UK before applying)
